Good Afternoon Mike,

I have reviewed the Phase I SAP MOD #3 Record of Modification from Roux and have the following comments:

- Please provide a copy of the field borehole log for deep monitoring well CFMW-16a.
- Please provide a figure showing the well construction details for wells CFMW-16a and CFMW-16.

Feel free to contact me directly if you have any questions or would like to discuss.

Thanks very much,

Subject: Field Modification No. 3

Mike:

Attached is another field modification form documenting why a 5-ft screen length will be used for deep monitoring well MW-16a, rather than the typical 10-ft length as specified in the SAP. Also, please note that I had Amy Hoffmann call August this morning to discuss and confirm that he agreed with our approach.

If you concur, please return a copy with your e-signature. Please let us know if you have any questions.

Regards,

Drew
